Look to the Coffee and Tea

"In all cases of so-called neurasthenia, the coffee-drink-ing of the patient should be inquired into. What has been said about coffee also holds good in regard to tea," says a physician of note.

More and more, people are coming to know that the coffee and tea habits are responsible for a large percentage of those nervous disorders classed under the head of "neurasthenia," or nervous prostration.

Both offee and tea contain the drug, caffeine, a powerful irritant of the nerves. They also contain tannin—an astringent—which acts most unfavorably upon the intestinal walls. Headache, "nerves," insomnia, biliousness—these are some of the signs of caffeine poisoning.

Many coffee and tea drinkers are learning that the way to health is by quitting coffee and tea; and for a pleasant, healthful drink, using

Premier Asquith, it is reported, has another "reriss" on hand. A crisis seems to be part of the per-manent property of Mr. Asquith. In fact he seems to keep one on the premises and trots it out obligingly whenever the London correspondents of Canadian pa-pers strike a quiet season.

Sir Sam Hughes told the House of Commons a few days age that his department had no patronage list, and that appointments and promotions were made in the army without regard to party. And he then took the train for New York to consult with J. Wesley Allison before Parliament and the house the promotion of the property of the same property of the property o

The Journal accuses the Bulletin of lying for partizan effect in saying that two-thirds of the Western grain crop is still in the country. It adds: "If two-thirds of the result of last year's crop is still in the "farmers' hands, the country is off last year's crop is still in the "farmers' hands, the country is have heard about that crop putting the western farmer on his freet is so much monoshine." On March 3rd the Western Associated Press sent out from Winnipeg the following dispatch, evidently based on information superior of the Dominion Government. Winnipeg March 3.—After six months of the movement of the 1915 grain crop of western "Canada, there has been taken "Out of the west 372.116.000 bassle's of the total crop of 721,000." Evidently there has been a "getting together" of the hydro pronofers and the Alliance company. The hydro company do not now want to operate the city power plant, while their hydro plant is under construction; and the Alliance company ask only for a contract to operate the city plant during the live or seven years allowed the hydro company to complete their plant. The under the plant of the company is completed the plant is one plant in the property of the city with so much electricity as may be required at a flat rate of one cent per kwsh. The hydro offer is to start supplying the city when their plant is completed—the five or seven year term to be decided by the city—the price being one cent, but the city being required to pas for 55,000,000 per organized to pas for 55,000,000 per content and the city being content. Evidently there has been a "get ng one cent, but the city being united to pay for 35,000,000 per car, the arrangement to run for venty-one years. Putting the confers together the city has enoportunity to secure power the next twenty-eight years at ne cent per kewh; against hich the city would be bound to yo for 35,000,000 k.wh. per year fer the completion of the hydro

Meantine the Collyer company do not seem to have appeared on the seene since the hydro agreement was repealed by the city council. As the two remaining companies have apparently got together and are not bidding companies have apparently got together and are not bidding making question seems to be whether these two complementary offers promise a supply of electricity at less coat than it can be encertained for at the city plant by the city. It was to the city has to bear in any event. The Alliance shear in any event. The Alliance arise of the city has to bear in any event. The Alliance after cuts this cost to cent. as a varying of 35 cents per kwh. On tion of about twenty millions per year, beginning at once and continuing thring the five or seven years, before the city of \$50,000 per year, beginning at once and continuing thring the five or seven years, before the feet. The present cost of production at the cover house is shout a half cent year, but the cost last the continuing the five of the continuing three does not seen a prospect that with cost feet and the continuing the five one cent figure. So far as the Alliance offer is concerned therefore there seems a prospect of a saving from a quarter of a millions and tollurs during the five seem year period, as a again the cost and as full.

NEW POWER OFFERS WILL SAVE CITY TWO AND HALF MILLIONS

New Hydro Agreement and Alliance Company's Offer to be Con-sidered by Council Tonight, and Both Likely to be Adopted— Mayor Compiles Illuminating Statistics

That if the proposed ofter of the Allianee Trust Company to take over the operation of the city power plant, pending the construction of the hydro-electric plant, is adopted by the city council, together with the net agreement of the hydro-electric company, the city will save approximately two and a hall million dolars over the original hydro-electric offer, is the opinion of Mayor Henry, who has been going carculity mon the sastsuce connected with the question. The whole matter will be taken up by the council at special meetings this attention and tonight, and it appears likely that the proposals will be agreed to with some minor alterations.

Mayor itemry vesteriay went carculity into the cost of the manuacture of power at the city plant, with the following result:

Only the first three items can be taken into consideration in comparing the present cost with the cost under the new proposals. These three items amount to 135 cents, as compared with the straight charge of I cent, both by the Alliance Trust Company and the new proposal of the hydro-electric company. The Cook Quit

And we were "up in the air" about it be-

cause the wife was a school teacher he-

fore I married her and knew nothing about cooking. She tried her best and

meant well I guess but her first attempt at a meal convinced me she knew more

about "Plutarch's Lives" than she did

So we had just about decided to eat in restaur-

ants when suddenly my wife struck a bright idea. "Why don't you call 5883 and insert a help wanted ad for a cook in THE BULLE-

A large Eastern wholesale house advised us a few weeks ago that they were about to retire from business and offered us a big consignment of Irish table linens, etc., at their contract price made many months ago before the linen market began to soar. We immediately dispatched our linen buyer, East, who went carefully 'Brought his wholesale linen stock and picked out the linen most suitable to our trade. And although this shipment of linens arrived a few days ago, we purposely withheld the sale a day or so in order that we might celebrate the "day" when our Auld friend St. Patrick drove all the snakes out of Iremencing Thursday.

It's the createst lines having more than the sale and the sale and the sale can be supposed to the sale and the sale and the sale and the snakes out of Iremencing Thursday.

cing Thursday. It's the greatest linen buying opportunity that housewives will meet with for many a day, for the linen market is still soaring higher and higher according to latest dispatches from the Irish mills.

We have a huge stock on hand—more than we'll need to keep up assortments and supply our regular patrons next year. So we can afford to offer you a limited quantity of these linens during this sale at savings of 40 to 50 per cent.!
